

The Arkansas Gazette, replying to our editorial of November 23 accusing it of being in contempt of court in commenting on state senatorial reapportionment when that issue is before the Arkansas Supreme Court, says this morning:

"It occurs to us that if there is any suspicion of contempt of court in this anywhere it might lie in The Star's absurd implication that the justices are likely to be unduly influenced by any newspaper's editorial comment."

But the judges on the supreme court bench can read, and regardless of the Gazette's twisted reasoning, it is an accepted principle among both jurists and newspapermen that editorial comment placed too near the hour of a judicial decision is unfair, prejudicial, and subject to citation for contempt.

The Gazette, speaking no more kindly than we did in our piece on November 23, goes on with its editorial this morning as follows:

"The need for reapportionment seems to us obvious. There have been major changes in the pattern of population since 1937, when the present districts were established. As an example, Hempstead county, where Hope is located, is now part of a senatorial district that contains 41,711 persons. Each of Pulaski's two senators currently represents 38,342 citizens."

"It is our opinion that such a spread (and it is not the greatest) violates the basic principle of senatorial representation. That seems to us to be a matter of proper editorial concern, and one of more importance than the local political arrangements that undoubtedly would be disturbed by reapportionment."

I gather from the foregoing that the Arkansas Gazette is bolstering its defense against the charge of contempt by counter-charging that Hope Star is, (1) interested in the particular setup of our present senatorial district, and (2) bent on defending a representation in the state senate which is out of proportion to our county's population.

But the record will show that The Star has been more critical of than friendly to State Senator F. C. Crow. Furthermore, The Star has the reputation of speaking out bluntly and plainly in its editorial column, rather than hiding its policy behind the particular "play" it gives favored programs in its news columns.

As for remedying the injustice of misrepresentation in the current senatorial apportionment, The Star would be the first to agree that Hempstead county's share in the Arkansas Senate should be reduced. We have a long record of advocating the bypassing of political-minded state agencies by appealing directly to the people. We did so when supporting an initiated bill for workmen's compensation, again in the case of the initiated state stock law—and many other cases.

But for some reason or other the Arkansas Gazette insists on grouping Hempstead and Miller counties in a single senatorial district, which in view of the continuing threat of a 3-per-cent state sales tax proposal could mean economic disaster for our community. Miller county, outvoting us, might always have the state senator's voice; and he, representing a majority county that is exempt from paying the sales tax, might not care how high the sales tax rate were fixed—so that Hempstead county would be taxed and destroyed in order to give Miller county revenue without taxation.

No section of America needs to apologize for demanding a fair court hearing on an issue having such consequences.

The Arkansas Gazette has much to apologize for in arrogantly overriding the procedure of justice for the people of all the state.

## Truman Keeps Silent on Political Plan

Key West, Fla., Nov. 27 (AP)—President Truman kept even his intimates puzzled today over whether he will seek re-election.

His press secretary, Joseph Short, voiced officially what other White House aides have said off the record:

"The biggest inducement for Mr. Truman, even those who insist Mr. Truman wants to throw the Democratic nomination to Chief Justice Fred M. Vinson of the United States, is whether he would accept it or whether he could win the nomination for the noted jurist."

## Next Year to Tell Whether Peace or War

—Harris

Congressman Oren Harris told the Hope Kiwanis club today at its regular meeting in the Hotel Barlow that the next twelve months would mean whether or not there will be an all-out war. "The climax will come," he said, "from about March of next year through July."

Speaking on the subject "The State of our Mobilization," the Congressman declared:

"If Russia does not start a world war by then, our defense program will be so far along and we will be so strong militarily that, nor no one else, would dare attack."

In speaking of the Korean war, he said he believed the atomic bomb should be used to stop the aggression. "The atomic bomb could be used in tactical operation now on the battle field, as well as behind where the Communists continue to build up their forces, even across the Yalu in Manchuria."

"The use of the atomic bomb would not create any greater moral problem than the use of 'block busters' in World War 2."

"We have seen," he said, "how weakness invites disaster. Decisive action should be taken now."

In discussing the state of our mobilization program, he said the Congress had to make a decision—that he, we, and the people, had to make a necessary choice between equally undesirable alternatives, a perplexing predicament.

With a mixture of humor in a serious thought provoking speech, he commented that one Congressman said that the 82nd Congress, "SPENT, SPIED AND HARRIED HARRY," but history will show that the 82nd Congress will be known as the "National Defense Congress." He explained that at the outset of this Congress such proposals as Civil Rights, National Health program and Farm Brannan Plan were put on "deep freeze."

He explained that we made two serious mistakes following World War 2: (1) by completely demobilizing while Russia increased its military strength and (2) by putting the slightest faith in Russia to cooperate in a program for peace.

In mobilizing there are three objectives to meet:

- (1) Providing and training military personnel to the extent of 3½ million. This part of our program is well underway.
- (2) Mobilizing our industry to provide materials, supplies and armaments. This takes time but is well underway.
- (3) Obtaining strategic materials so necessary and vital in our mobilization program. 93 items are on the stock pile list, which we must obtain from sources outside the U. S.

In providing this program more than \$95 billion was appropriated by this Congress, 82% of which was to pay for war, our security and national defense.

The subject of investigations has required much time by this Congress. 134 investigations have been underway, many of which have determined the policies.

The Congressman emphasized, however, in the midst of all this turmoil we cannot overlook our basic objective to prevent aggression and the enslavement of other nations as well as the threat to our own security.

"There have been many costly mistakes made. To take advantage as has been shown in many instances and to perpetrate crime for personal gain is tantamount to treason and cannot be tolerated."

Huge necessary programs which we have been forced to undertake in our own security affords such opportunities, reported actions in many instances have shocked the faith in our Government. Not all reports are true, however, and the confusing problem has been to determine what was factual and what was not factual.

"Our difficulty," he said, "in the Congress was to meet serious responsibilities without crippling this greatest productive system." He emphasized the following basic fundamentals:

"We must mobilize and be ready to protect ourselves against aggression that would come from the heart of Moscow. Cooperation for peace having failed adequate strength requires absolute priority."

"We must not only be ready to end an atomic war if it comes and we all pray to God that it doesn't, but we must be in a position that they would know it is an act of suicide to make such an attack on us or our Allies."

"Cooperation with other free nations is vital to this strength, mutual security in the free world is necessary to our own existence, and"

"We must prevent our system from being destroyed from within. This means vigorous action to stamp out subversiveness and traitors within our shores."

"This means that we cannot permit those within our own Government or having influence in policy with communist leanings or even sympathizers. This means that we cannot tolerate even lip service or tagging along with the idea of recognizing the Communist viewpoint."

"I fear that we have experienced too much mealy mouth, which is

## Tito Would Oust Foreign Troops

Belgrade, Yugoslavia, Nov. 27 (UP)—Marshal Tito demanded today that all foreign occupation troops "everywhere" be withdrawn as the first step toward settling international tension.

Tito chided the West for campaigning against "Communism" rather than against Russian aggression. He said Russia was not a true Communist state and insisted that communism and capitalism could exist peacefully side by side.

"The first requirement to settle international tension is to withdraw all foreign occupation troops everywhere and to bring the problem of those occupied areas to the United Nations for peaceful settlement," Tito said.

Tito, speaking at the opening session of the annual assembly of the International Federation of War Veterans, accused Russia of preparing war.

He attacked the presence of Russian occupation troops in Austria, Romania, Hungary, Poland and East Germany.

Tito said the Russians were keeping occupation troops in Austria because of Trieste—the free territory jointly occupied by Yugoslavia in one zone and the U. S. and Britain in another.

He said Russia could continue its control of Hungary and Romania under the guise of guarding communications lines to troops in Austria. He said the same aim was behind Russian troops in East Germany and Poland.

The Yugoslav premier did not mention the Western Allied forces in Western Germany.

"Reactionary circles in the West are promoting a crusade against communism, but this propaganda is very dangerous because Russia is not Communist," Tito said. "It is not even truly Socialist."

"I believe that Communist and capitalist countries can live peacefully side by side and that the international political systems should be left to each country to decide for itself."

Tito said he favored disarmament proposals, but did not believe they would work until all members of the U. N. accepted the principle that all disputes should be settled in a peaceful way on the basis of equality.

"Then disarmament can be achieved," Tito said.

## Condemnation of Jain Is Dropped

North Little Rock, Nov. 27 (AP)—The city of North Little Rock has asked that condemnation proceedings against its jail be dismissed.

City Attorney W. E. Phipps made the request yesterday, charging that the Pulaski county grand jury did not have authority to institute the proceedings. The jury has authority only in criminal matters, said Phipps.

The suit was filed Sept. 28 by Prosecutor Tom Donnie at the direction of the jury. The jury branded the jail as unfit for human habitation.

North Little Rock Mayor Ross L. Lawton now contends that the jail has been improved to meet the jury's requirements. The city has spent \$800 to remodel the jail.

## KEFAUVER HONORED

Los Angeles, Nov. 27 (AP)—Sen. Kefauver (D-Tenn.) received an honorary degree of doctor of laws last night at Pepperdine college.

Kefauver spearheaded the recent congressional investigation of nationwide crime syndicates. At a press conference yesterday, he said he would "not run away from the opportunity of running" for president on the Democratic ticket.

## Santa Claus Is Coming to Hope December 10

Santa Claus is coming to Hope.

The grand old man will arrive at 8 p. m. Monday, December 3 and is scheduled to remain through Monday, December 10, with daily downtown visits.

Santa is being brought to Hope direct from the North Pole by the local Retail Merchants Association.

Although store windows will be full of Christmas merchandise for the benefit of shoppers, stores will not be open the night of Santa's arrival.

Each week day, starting Tuesday, December 4, Santa Claus will visit downtown from 11 a. m. until 5 p. m. From 2 to 4:15 p. m. daily Santa will interview youngsters over KXAR from a downtown location.

Arrangements are being made for rural students to talk with Santa on certain days.

Monday afternoon, December 10, Santa will leave for the North Pole but will return to leave toys for kiddies on Christmas.

## Paisley, Oglesby Boys Organize New Cub Pack

Parents of Paisley and Oglesby Cub-age Boys met last night at the Paisley School and organized a new Pack.

The Pack committee was elected with Roy Tullis, Orville Standman, Arcey Dale Kidd, Floyd Hisslip, and Rev. O. D. Montgomery serving as committee members. Denver Dickinson was elected to serve as chairman on the Pack Committee. Rev. Charles T. Chambers, Jr. was chosen as Cubmaster.

Den Mothers were chosen from the mothers attending the meeting. They are Mrs. Clyde Clark, Mrs. Thomas Aaron, and Mrs. Orville Standman. Other mothers in the group were Mrs. Denver Dickinson, President of the Paisley PTA, Mrs. Olen Lewis, Mrs. Paul Jones, Mrs. Floyd Hisslip, Mrs. Roland Pearson, Mrs. Dale Kidd and Mrs. Elliot Sweet, who took charge of the group of women.

The Den Mothers meet again at Paisley at 2 p. m. today for training before their Den's start meeting next week. The committee will meet again tonight to determine the regular dates for the Pack meetings and to receive training in their duties as a committee. They plan to start their first meeting of the Pack with a Christmas party.

New Den's will be added as leadership is secured to accommodate the number of boys wanting to join Cub Scouting.

Plans are underway to start a third new Pack in the Brookwood school area. Completion of the Paisley-Oglesby Pack will mark the second new Pack started this fall. The Garland Pack was completed last week when several new Cub Scouts were inducted.

## Any Peace Truce Agreed on in the Korea Area Would Certainly Be an Uneasy One

By HAL BOYLE

New York, Nov. 27 (AP)—Signing of a cease-fire line agreement in Korea is only step toward an armistice.

There still remain some vexing problems to be solved before there is any real hope for a true peace in that uneasy peninsula.

A top problem, of course, is the task of getting the enemy to agree to let joint Allied-Communist teams be carried out fully. The Reds, for reasons of their own, are notoriously reluctant to permit outsiders into their territory.

That stubborn "fear of the foreigner" may be the rock upon which armistice negotiations still will founder. But it is hard to see how the Allies can withdraw from their position. They cannot blindly agree to a pact in the enforcing of which they have no share.

Another thorny issue is the problem of prisoner exchange. It has many facets.

For one thing, the return of Allied prisoners of war will reveal the full toll of Red atrocities among the captives. Nearly 11,000 Americans are listed as missing in action. The fact must be faced that only a fraction of these men remain alive, probably fewer than half.

The same uncertainty covers the fate of the other U. N. missing, including many, many thousands of South Korean soldiers.

On the other hand, the Allies hold 160,000 prisoners on the island of Koje off Korea. The figure includes 18,000 Chinese and 40,000 North and South Korean civilians considered dangerous.

Despite this ratio, the Reds are sure to press for a straight exchange of all prisoners. They will want all their own people back just as they did in Europe after the last world war.

But what will they do with them when they get them back? A large number of the prisoners are deserters and defectors from the Chinese and North Korean armies. The Allies dropped millions of leaflets urging them to throw down their arms and come through the U. N. lines. Thousands of men did so.

What will happen to them if they are now handed back to the Reds? Some American army officers believe they will be put to death at once as traitors to the Communist cause.

An American instructor at the Koje camp said recently: "The average (Red) prisoner does not know why he is fighting. Most of the Chinese would like to go to Formosa to join the Nationalist forces, which in most cases they originally belonged to. With the exception of the few hard-core North Korean Communist officers, the average North Korean soldier would prefer to stay south of the 38th parallel."

Will the U. N. negotiators compel these men to return to the bitter revenge of their Communist leaders? Or will each prisoner be given his choice of going or staying?

## Strike Delays Work on New Hospital

Foot Smith, Nov. 26 (AP)—Construction of a \$2 million hospital here has been halted again by a labor dispute.

AFL Electricians yesterday walked off the job in a dispute with the Oklahoma Gas and Electric Co. over employees being used to install an electric transformer inside Sparks Memorial hospital.

Several weeks ago, AFL Sheet Metal Workers left their jobs, charging that three men working on the project were delinquent in their union dues. The men paid up and the strike ended.

J. K. Fraiser of the Fraiser Construction Co., general contractor for the project, said union electricians contended that installation of the transformer should be handled by union members.

When the company disregarded the complaint, electricians left their jobs and other union workers followed, said Fraiser.

An estimate of the total number of workers involved in the dispute was not available.

T. F. Self, business manager of Local 77, International Brotherhood of Electrical Workers, said the strikers would return to work if OG & E employees were taken off the job.

Morgan Wright, OG & E division manager, said employees would go ahead with the work as scheduled.

## MISS GERMANS

Bonn, Germany, Nov. 27 (AP)—The west German government said today that 4,500,000 Germans who fell into soviet hands during the war are still missing.

About 3,000,000 of these were civilians and 1,400,000 were soldiers, a government bulletin said.

The figures were compiled by the German Red Cross and contrast sharply with Soviet claims that all German military prisoners have been returned to their homes except for war criminals.

## Ferguson Fires Back With Cost of Electing Taft

Washington, Nov. 27 (AP)—Joseph T. Ferguson contended today that spending to re-elect Senator Taft (R-Ohio) in 1950 could be figured at \$100,000,000—using the same approach Taft did in putting costs of the Ferguson campaign at \$2,000,000.

Ferguson, Democrat who lost the election to Taft by 430,000 votes, fired back from the witness chair of a senate elections subcommittee at many of the statements Taft made from the same seat yesterday.

A peppery little man, known as "Jumping Joe" in Ohio, Ferguson said it was a "deliberate lie" that the Democratic campaign was blueprinted "the fight against his re-election."

Ferguson commented: "The only Communist—or ex-Communist—who came into Ohio—that I know of—was Ben Gitlow who made several speeches for Mr. Taft."

As for Taft's charge of "carpetbaggers" (out-of-staters) engaging in the campaign, Ferguson said there were plenty on Taft's side. He ticked off the names of Senator Wherry (R-Nebr.), Republican national committee chairman Guy Gabrielson, Movie Actor Adolph Menjou, Harold Stassen, Senator Lloyd (D-Va.) and Senator McCarthy (R-Wis.).

A contest is involved in the present hearing. The elections subcommittee is hearing testimony on the basis that it may be helpful in developing improved election laws. Each side in the Ohio contest charged the other with excessive spending.

Taft was not present as Ferguson testified. He is in North Carolina on a speaking tour. Jack Martin, his administrative assistant sat behind the committee and listened to the testimony.

"The audience was just about the same as yesterday—some 40 people," Ferguson came before the committee with a statement in which he estimated the costs of the Taft campaign at \$5,000,000. But he had also a "supplement" in which he said the cost might be figured at \$100,000,000 if calculation was made on the basis that Taft used.

He said the senator made a "big deal" out of the fact that "one lonely radio news commentator," Frank Edwards, supported Ferguson. Edwards' broadcasts are sponsored by the American Federation of Labor.

"But Mr. Taft did not mention that great number of radio news men and columnists he had supported propaganda for him," Ferguson said. "If the comments of Frank Edwards are to be charged as a campaign contribution, then I will have to revise by claim of \$5,000,000 and say that Taft contributions amounted to many millions more—possibly \$10,000,000."

## Farm Practices Must Be Reported By November 30

Friday, November 30, is the final date for farmers to report performance on practices carried out on prior approvals expiring at the end of this month.

According to Earl Martindale, Chairman Hempstead County PMA Committee, all prior approvals expiring on November 30 and not reported will be cancelled, thus resulting in the farmer losing the assistance in the amount authorized by the approval.

All farmers holding approvals expiring November 30 are urged to report to the County PMA Office at their earliest convenience but in no event later than the last day of November. Those preferring to do so may make their report by mail.

The mangled body of an engineer, whose failure to observe signals was blamed for the collision of two plush streamliners was pulled from beneath the wreckage of the trains early today.

Workers using picks and shovels recovered the body of T. J. Powers, one of 17 killed and nearly 70 injured when the speeding Crescent limited rammed head-on into the Southern Railway's Southern Sunday afternoon at this coal mining hamlet.

The northbound Southerner had pulled out on the main line prematurely and was standing still, when the southbound Louisville Nashville Crescent smashed into it. Powers was walking up the track and was crushed beneath one of the Crescent's baggage cars as it toppled into a fill.

Trains were proceeding normally today over an auxiliary track built around the wreckage. But the Southern's night chief dispatcher in Birmingham, Ala., J. W. Hampton, said it will be "several days" before the main line is cleared.

L. E. Wetters, general agent for the Southern at Birmingham, said Powers failed to heed a "red board" or automatic block signal. Another Southern official, Joe Nall, said the Southerner's southbound section passed while the northbound train was standing on the siding and gave visual and whistle signals to warn Powers it was followed by the Crescent. Nall said the lead train carried warning flags on its locomotive and sounded one long and two short blasts on its whistle.

"He (Powers) ran right through the red board," Nall said. "We probably will never know whether he answered the whistle signal, and if not, why not."

The Crescent had been re-routed over the Southern's tracks from Atlanta through Birmingham and Meridian, Miss., to New Orleans because a tugboat had smashed a bridge on the L & N line near New Orleans.

However, Southern officials pointed out it is not customary to notify engineers that trains bound in opposite directions are traveling in sections. They explained it is not an unusual operation.

## Prison Population Grows in U. S.

Washington, Nov. 27 (AP) — The U. S. prison bureau yesterday reported a 1.2 per cent increase in adult state and federal prison population during 1950.

The number of inmates at the end of the year totaled 167,175, up 2,046 from the end of 1949. Most of the increase occurred in state institutions, which had 150,104 adults in custody while 17,069 were detained by federal authorities.

## Truman Keeps

Continued from Page One

after he submits his three major messages to congress in January, seems satisfied to keep everyone guessing.

He is concentrating, for the moment, on dominating the decisions of the party.

For instance, he told his last press conference that he will include his controversial "fair deal" domestic legislative program in his state of the union message which he will deliver to congress in January.

And, the President said with the spirit of the successful 1948 campaign, he will deliver to congress in January.

Howard Harrell of Little Rock was the guest Thursday of Mr. and Mrs. Rodney Hamilton and Mrs. J. C. Stegas.

Mrs. Elsie Davis and Mrs. W. A. Callmorgan have returned to their home in Lufkin, Texas, after a visit with Mr. and Mrs. Ben Johnson.

paigner, he could guarantee that the "fair deal" will be a part of the 1952 Democratic platform.

Most associates agree that the nomination of Sen. Robert A. Taft of Ohio by the Republicans would be the biggest inducement for Mr. Truman to run again.

The President has said that Taft is his candidate for the GOP nomination.

Taft yesterday countered Mr. Truman's recent insistence that Taft won re-election as senator from Ohio as a result of heavy spending by "special interests."

He testified that big labor unions, Communists and White House officials campaigned against him in the most vitriolic attack probably ever conducted against any candidate.

Taft gave a 22,000-word statement to a senate committee in which he called completely false Mr. Truman's speech before the national woman's Democratic club charging special interests poured money into Taft's re-election campaign.

Taft charged that the campaign against him had the character of a sinister conspiracy with much of its activity directed "right from the White House."

It gives you a lot to be thankful for

Let's suppose that this is you.

The car you're riding in, as you can see, is a Buick.

But what you can't see is the satisfaction which being behind that wheel brings to every day in the year.

Take the feel of it — the way it goes into action when you nudge the gas treader. Quick. Eager. Wiling. No effort at all. You just swoop up to the miles per hour you want.

That's because there's a high-powered, high-compression, valve-in-head Fireball Engine under the hood that makes every drop of gas do extra duty. And it's because there's a Dynaflo Drive,\* feeding that power back to the rear wheels as smoothly as cream flows from a pitcher.

Take the way it sits the road. Balanced. Poised. Sure-footed. Snug.

That's because of a long list of things that Buick

engineers have done to its ride—including a torque-tube keel that keeps rear wheels tracking true—and soft coil springs that individually cushion each wheel.

Take the way it steers. Easy. Light. Firm. On a straightaway—or coming out of a curve—it seems to know what you want it to do.

That's because of something the engineers call "front-end geometry"—and because 60 steel balls roll in their own little race track to ease each turn of the wheel.

Take its room, its comfort, its smart good looks—and its price.

Any way you size it up, here's a car to make you thankful for your good judgment in picking it, against the field.

All that is needed to complete this picture is you at the wheel of a flesh-and-blood Buick—out on the road for a sample of what we've been talking about.

That's easy to arrange. Just give us a call, and we'll do the rest.

\*Equipment, accessories, trim and models are subject to change without notice. †Standard on Roadmaster, optional on other Buick models.

## Storm Lets Up in Northeast

By The Associated Press

The storm which hit the northeastern part of the country diminished today after leading up to 12 inches of snow in northern Maine.

Light snow continued in parts of northern New England and there were flurries in the eastern Great Lakes region and the Appalachians. Strong winds were reported in some parts of the snow belt.

Generally fair weather was reported in other parts of the country except for showers in the northwest Pacific states as far south as northern California and eastward into the northern Rockies.

The weather was on the chilly side over the eastern two-thirds of the nation except in Florida. Some warming was reported in the west and rising temperatures were predicted for most of the north central region. However, it was zero early today in Sault Ste. Marie, Mich., and near zero in some other midwest areas.

## Quick Action Averts Tragedy

Walnut Ridge, Nov. 26 (AP)—Carbon monoxide fumes escaped into a church here Sunday morning, but quick action by the pastor probably saved the lives of several persons.

The Rev. R. E. Jones, pastor of the old Baptist church of Walnut Ridge, suddenly faint from inhaling the fumes, shouted for the doors to be opened.

Only one person required hospital treatment. Dr. Ralph Joseph said 13-year-old Catherine Downing was hospitalized. He said she would recover.

Dr. Joseph said about 30 persons suffered some ill effects from the fumes.

To head off the threatened walk-out, President Truman declared an emergency and appointed a board to hear the firemen's plea—along with the replies of carrier representatives.

A three-man board of inquiry begins its hearings today.

## Rose Bowl Teams Are Selected

Pasadena, Calif., Nov. 27. (AP)—With Stanford and Illinois officially named to meet in the Rose Bowl New Year's day, speculators were counting on their fingers today in an effort to predict a winner. Well, no matter how you juggle the arithmetic, the 38th renewal of the granddaddy of all bowl games figures out lighter than a new pair of shoes.

Even Chuck Taylor, Stanford's rookie coach, declined to venture a forecast. He called the turn on nine straight victories for his team this season, but missed on number 10. Maybe Illinois will be too tough to handle, "was all he cared to say.

Conch Red Sanders from UCLA described the Illini as capable of whipping "anything the Pacific Coast can put on the field."

And Coach Howie Odell of Washington, likewise beaten by both, was of the same, but more reserved opinion.

All of which tends to foreshadow the West Coast's sixth straight drubbing since it inaugurated its pact with the Big Ten in 1947—the year Illinois walloped UCLA, 45-14.

Unbeaten Illinois, with only a scoreless tie with Ohio State to blight its nine-game season, rang up 80 points to 78 for the opposition. The Illini, who won the conference championship by edging Northwestern, 3-0, over the weekend, were named to the Rose Bowl yesterday by unanimous vote.

## Spivey Lost to Kentucky for Weeks

Lexington, Ky., Nov. 27. (AP)—The operation of Bill Spivey's knee struck a heavier blow to the Kentucky basketball future than Kentucky meets the eye.

It sent the seven-foot All-American pivotman to the sidelines, possibly until mid-January. At the same time, it deprived the national collegiate defending champion of needed height on the starting five and depth of experienced personnel.

Kentucky has a veteran combination ready for its opening game, Dec. 8 with Washington and Lee, but can count on only one experienced reserve, six-foot-five Lou Tsiropoulos, a junior forward-center, to step in for relief duty.

The 25-game schedule includes appearances in the Sugar Bowl tournament at New Orleans; 15 tilts with Southern conference competition; two games each with DePaul and Xavier (Cincinnati) and single tilts with W and L, Minnesota, Notre Dame, St. John's and UCLA.

Spivey hurt his knee while the club was making a movie for clinic demonstrations.

of the Big Ten faculty representatives.

Stanford, whose only defeat was a 20-7 lacing from California last Saturday, was chosen by similar formalities in the coast conference later in the day.

The Indians, who scored 222 points in 10 games to 141 for their foes, are ranked eighth nationally in this week's Associated Press poll. Illinois is fourth.

Stanford, backed by eight years of tradition in the classic, has a 3-4 record in Rose Bowl play in the first one back in 1902, when Michigan thrashed them, 49-0. Their last appearance was in 1941, when Frankie Albert led them to a 21-13 triumph over Nebraska.

This year, as last, the Stanfords were doped to finish somewhere in the middle of the coast conference pile. Instead, they rallied behind their All-American end, Bill McColl, and their amazing armstrongs, Gary Kerkorian and Harry Huggan to knock off all opposition until Cal caught them in the end.

On the other hand, Illinois, paced by the running of Halfback Johnny Karras and the magic toe of Sam Rebecen, was favored from the start to win the Big Ten title.

Not Ruled Out

There weren't any major changes in the football rules this year, but a pair made not so long ago really loosened up the game. These were moving the in-bounds "hash mark" in 17-23 yards from the sidelines and permitting forward pass from anywhere behind the line of scrimmage.

This, as Little pointed out, made the entire field the attacking front and put tremendous pressure on the defense. No more comments. We're out of space.

### Search Abandoned for Missing Plane

Home, Nov. 26 (AP)—The U. S. Air Force has given up the general search for an American C-47 transport plane which disappeared Nov. 19 en route from Munich to Belgrade with four crewmen.

A spokesman at U. S. Air Force search headquarters at Tuxedo, said a small crew with a helicopter and two planes would remain on duty to check any reports on the missing craft.

In the past week as many as 20 planes a day have scoured

Yugoslav territory and the Italian Alps in a fruitless hunt. Ground searches have covered much of the area running down rumors about the missing craft.

Since the transport last radiated on Nov. 19 that it was heading toward northern Italy with fuel running low, there have been many reports as to its fate.

The U. S. embassy at Belgrade reported that the plane was found on by Hungarian and Romanian border guards.

There also was a report from Vienna that an unidentified air traveler from Bucharest said the craft was shot down by Romanian

### Fair Enough

London, Philip Murray, the president of the CIO, recently presented a cash award of \$10,000 to Senator James E. Murray, of Montana, in recognition of that Senator's statesmanlike and good works in the interests of labor, meaning unions in general, the CIO in particular and the cause of socialism under unions at home and abroad. Murray is one of the members of congress who permitted Eugene Lapschultz, the refugee operator of a little personal nest in New York, to use his senatorial Frank to distribute, at the expense of American taxpayers, propaganda favoring the Morgenthau plan for the future of Germany. Roughly, Morgenthau proposed to withdraw the forces and restrain of western civilization and give Germany over to Soviet Russia.

Henry a rich man, Senator Murray decided to turn over the \$10,000 to charity. Thus he cannot be accused of accepting a bribe from a client of his senatorial solicitation for services just or yet to be performed unless any moral profit flowing from the prayers of the ultimate beneficiaries be so evaluated by the internal revenue. To a rich man, having in mind the Senator's problem with the need for money, this might be considerable. In any case, here is a flagrant corruption arising at an opportune time to embarrass by criticism of the British House of Commons for permitting unions to pay money to Socialist M.P.'s belonging to the unscrupulous Labor Party as an undisguised subsidy for their votes in favor of union projects and against all propositions which the unions oppose. This comes down to the fact that the British unions are, to the best of their ability thus far, trying to purchase with money out of the union treasuries parliamentary votes to subjugate the British people to the socialist state. They were just exploring the possibilities, which obviously are great, and enormous, when they were checked at the polls.

The kind of government which the British unions were trying to set up permanently is a straight steal from Adolf Hitler's national socialism, barring the hatred and persecution of Jews. It is not devoid of hatred, however for American Union, a Welshman and there was a C.I.O. cabinet minister under the socialist regime, proclaimed his undying hatred of all unions of conservative political faith, described the Anglo-Saxons as "bovines" by contrast with the

guards. That report said the four crewmen were alive but injured.

### Badman Cook to Learn Fate Soon

El Centro, Calif., Nov. 26 (AP)—Missouri had man William E. Cook, killer of six persons, may learn today whether he is to live with his life in San Quentin prison or his gas chamber by playing William H. Dewey's role.

Superior Judge Lucy Moberg ordered the 23-year-old inmate, who had been in the prison since the afternoon, at which time the probation officers report on the degree of guilt.

If Cook is given the death sentence, he will receive under California law, an automatic review. This normally takes several months, and in the meantime Cook will be returned to Alcatraz prison to continue serving 200 years for the same murders of the Carlisle family of Alwood, Ill., last winter.

Whether the federal government will approve a public demand that provides for the release upon good behavior, of any federal prisoner who has served 10 years of a life term, or of any prisoner sentenced to 10 years or more.

The prosecution in the Cook trial here stated the possibility that he might obtain his release within 10 years, but some federal officials privately expressed the belief that Cook, who is under five sentences of 10 years each, to be served consecutively, could not obtain his release in less than 10 years.

More than 100,000,000 pairs of shoes are produced annually in the United States.

admit and admirably. Celts, and warned the nation that if the Conservatives ever should overthrow the socialists in a regular, legal election, the same kind of thing would be done to the people, civil war and a blood bath would be likely to ensue. There is no doubt that he aroused old enemies between the Welsh and English peoples which had been lulled down over many years.

The Attorney General refused to repudiate these sentiments although it did not endorse them, either. A further indication of the kind of government that the socialists were trying to impose permanently when they were so rudely, if only temporarily, interrupted, is the food subsidy. Under the subsidy, everybody, rich, poor and middle class, gets his food, unapportioned as to need, at a rate through price controls enforced by law. The government pays the producers of food a subsidy and raises the money through taxes taken from the people in other ways. This makes jobs for deserving parasites of the regime and exposes farmers, vendors and everyone else having anything to do with food, including those who just eat it, to perils and vexations. Our grocers and housewives will remember some of them out of their recent experience with points and coupons. An English journalist of my acquaintance tells me that his grocer, a small neighborhood operator, had to hire two clerks just to keep track of the ration and keep him out of jail.

The \$10,000 award which Philip Murray handed to Senator Murray is taken from the fees and dues of several million American workers who are members of the CIO, against their will. They would cheerfully buy Senator Murray a wadding-sheet but never would be a willing party to any project to honor him. The share of each worker in the \$10,000 is minute, but the impairment of his citizenship and the ultimate invitation to infiltrate him are clear.

The donation of \$10,000 to a member of congress by an organization having a legislative program and lobbyists in Washington, is so flagrantly wrong that both the donor and the recipient should be subject to long imprisonment. It would be just as honorable for a justice of the supreme court to accept a similar gift from a friend at the bar. I am not prepared to say that any justice would refuse to accept the money but I can think of two off-hand who would be ready with very plausible feints of casuistry to purify the deal.

There is no law that I am aware of by which we could punish either of the Murays, who are unrelated except in a close moral and ethical bond and one of my motives in bringing the case to the fore is to taunt the American People. Men into such a revulsion against the self-assured corruption of the union movement that he will realize at last what these people are doing to his country and the beautiful form of government that we inherited. Another of my motives is to earn money to pay taxes to send secret agents of the CIO and AP of L over to Europe to promote socialism, disguised as experts on the vast staff of the state department. This price is called the Philip Murray award and the managing officers of this hand-outting old hypocrite in a recent issue named after himself as a "nerd" to another Murray no better than himself is typical of the regime which produced them. The late Franklin D. Roosevelt built and dedicated with extreme care and memory and so convinced things that he would become the New Deal in the Kremlin, the grand exalted keep of a state bank. This unblinking widow and his son, Elliott have presided over this vast enterprise of many phases as various as those of Corey Island and in the same general taste and with this precedent President Murray of the CIO need entertain no qualms on any issue of immodesty.

### Philippine Army Charles Congressman

Manila, Nov. 27 (AP)—A Nationalist congressman and four of his colleagues yesterday were charged with murder, arson and robbery by the Philippine army.

The complaint alleges that Rep. Carlos H. Umali and four of his colleagues conspired with Communist forces to raid the town of Tiaog, Misamis Province, Nov. 14.

Four persons were killed and the house of Mayor Marcel Punzalan

was looted and burned. Umali had his four followers arrested. Nacionalista leaders refused to comment on the charges.
